Experience

XID Digital Services (2022 - June 2026)

XID Internal Branding & Website

- Collaborated in defining XID's brand identity, visual language and corporate website to create a consistent and recognizable digital presence.
- Designed graphic assets and illustrations that strengthened product storytelling and enhanced the website experience.
- Participated in product requirement analysis and definition aligned with business and user needs.
- Planned and prioritized design and development stages focused on continuous product improvement and evolution.

Enterprise & B2B Products

- Collaborated closely with Product Managers, stakeholders, and Engineering to refine business requirements, identify edge cases, and define development-ready solutions.
- Conducted product discovery through research, workflow analysis, and user behavior insights to uncover opportunities for improvement.
- Designed intuitive user flows, information architecture, and interaction patterns that simplified complex enterprise workflows.
- Created high-fidelity interfaces, interactive prototypes, and scalable design systems to support consistent implementation across products.

Financial SaaS Product

- Helped shape the strategy and user experience of a financial SaaS platform from discovery through implementation.
- Conducted competitive analysis and benchmarking to inform product strategy and validate design decisions.
- Defined the product's visual identity by exploring multiple branding directions and establishing a cohesive design language.
- Designed scalable user flows, site maps, and interfaces while balancing business objectives, user needs, and technical feasibility.

Product Redesign

- Participated in product discovery and translated business objectives into user-centered product requirements.
- Created and refined user stories to support Agile collaboration across Product, Design, and Engineering teams.
- Redesigned key workflows to improve usability, navigation efficiency, and overall user experience.
- Led product identity redesign initiatives, establishing a more consistent and scalable user interface.
